Introducing the NeoLifting© Facial + Buccal Massage - Me Clinic

Canonical: https://www.meclinic.com.au/skin/neolifting-facial-buccal-massage

Details:

We offer NeoLifting at our Malvern East clinic with Michelle Casey, our paramedical aesthetician. It is a hands-on facial massage for the face, neck and upper chest. The word “buccal” refers to the cheek. This part of the massage uses a technique inside the mouth.

If you would like to know what an appointment involves, ask Michelle to talk you through the external massage and the intraoral component. A consultation is a chance to discuss what you want from the treatment and whether the approach feels right for you.

For appointment availability and the current session fee, call our team on 1300 852 050.
